

DECK WINCH

The SOSI Model DW 15013-40S Deck Winches are designed for large towed body shallow deployment and for other similar marine operations. The system has a large diameter and narrow drum design so that it does not require a levelwind for most applications. The DW is ruggedly designed for ship-board use of quality steel and comes with an epoxy finishes for long life in marine environments. The Model DW-15013-40S Deck Winch is supplied with a separate hydraulic power unit.

SPECIFICATIONS

Drum capacity	4,750 ft. (0.68" cable)
Line pull	15,000 lb. (bare drum)
Line speed	100 fpm (mid drum)
Length	82 in.
Width	46 in.
Height	81 in.
Drum	
• Drum diam.	48 in.
• Flange diam.	72 in.
• Drum width	13 in.
Weight	7,000 lb.

FEATURES

- Geared hydraulic chain drive
- Fail-safe hydraulic brake
- Separate hydraulic power unit
- Stainless fasteners & fittings
- Dog pin for extended towing
- Epoxy finish

OPTIONS

- Manual band brake
- Slip ring assembly
- Levelwind
- Cable speed, scope & load displays
- Stainless quick disconnect fittings
- Integral fork lift pockets specifications
